

Important Notes

The AUCarePlan is only valid at Advanced Urgent Care for in-office treatment only. The AUCarePlan is not valid at any other facility and does not provide assistance with hospitalization.

Individual plans are designed for the member only and cannot be transferred to another person.

Family plans are designed for a family of at least 3 family members and may be used to cover spouses, children, and domestic partners.

Enrollment in the AUCarePlan requires a valid photo ID in addition to a 3 month minimum membership payable at the time of enrollment. Additional months may be paid on a monthly basis by cash, check or credit/debit card (VISA and MasterCard only).

Prices are subject to change but are "locked in" upon enrollment, assuming that continual membership is maintained and monthly payments are paid on time.

More Information

Cancellation:

You are required to provide our office with a 30 day written notification when requesting cancellation of your AUCarePlan.

Termination:

Advanced Urgent Care reserves the right to terminate your policy at any time. You will be provided a 30 day notification of such termination and any applicable refund will be paid to you at that time.

Right To Refuse Membership:

Advanced Urgent Care reserves the right to refuse membership. Refusals shall be determined prior to initial membership payments.

Referrals:

Members will receive a \$25 credit on their membership account for each person they refer who signs up for a new AUCarePlan. Be sure the new member completes the "Referred By" portion of the enrollment form.

Questions:

Please refer any questions regarding the AUCarePlan to our billing department.

Advanced Urgent Care

Professional Care. Reliable Providers.

Is Pleased To Announce
The Addition Of The

AUCarePlan

The AUCarePlan is a plan specifically designed for those patients who use Advanced Urgent Care for a majority of their health care needs, and who do not have health insurance.

The AUCarePlan was designed to give patients access to their medical needs at a reduced cost. Services include office visits, lab testing, x-rays, injections, EKGs, nebulizer treatments, and prescriptions. Additionally, many procedures are also provided at reduced costs. These include laceration repairs, IV therapy, splinting, TB testing, nerve conduction tests, and school/sports physicals.

A Plan To Meet Your Needs

Individual plans are for one person only and have no age restriction.

Family plans are designed for families of at least 3 members and may be used to cover spouses, children, and domestic partners.
